THE MORTGAGE REGISTRY TAX

House Bill Provides for Repeal
of the Statute.

INTRODUCED BY SWENDSON

St. James Man Presents the Measure
and Lobeck of Alexandria Offers
Another Bill to Make a Different
Distribution of the Tax—Indian
Pension Measures Introduced in the
Senate.

St. Paul, Jan. 15.—A bill for the repeal of the mortgage registry tax law was introduced in the house by C. J. Swendson of St. James. E. E. Lobeck of Alexandria introduced a bill to make a different distribution of the tax, giving two-thirds to the county road and bridge fund and the remainder to the state. A bill exempting estate, county, village, city, town and school district bonds from taxation was introduced by Carl Wallace of Minneapolis.

A provision requiring the dairy and food commissioner to proceed directly against the wholesaler or his agent, when he is a resident of the state, instead of the retailer, when an action for violation of the food laws is started, is contained in a bill introduced by Donald Robertson of Argyle.

A bill allowing railroads a wider right of way where they need it for deep cuts and snow fences was introduced by P. H. McGarry of Walker. Authority to counties to buy bounties for various destructive animals is contained in a bill by John Rustad of Whalen. It allows county boards to pay 5 cents for pocket gophers, 3 cents for common gophers or squirrels, 15 cents for ground hogs and wood chucks, 50 cents for rattlesnakes, 10 cents a dozen for blackbirds in the spring and half that much in the fall.

ROJESTVENSKY PASSES AWAY

Noted Russian Admiral Dies of
Heart Disease.

COMMANDED ILL-FATED FLEET

Deceased Officer's Ships Were Defeated by the Vessels of Admiral Togo in the Battle of the Sea of Japan. Rojestvensky's Flagship Was Blown Up and He Was Captured by the Japs and Held a Prisoner Until War Ended.

St. Petersburg, Jan. 15.—The death is announced of Vice Admiral Rojestvensky, who was in command of the Russian fleet in May, 1905, when it was practically annihilated by the Japanese in the battle of the sea of Japan. The death of Vice Admiral Rojestvensky was due to neuralgia of the heart.

Sinovi Petrovitch Rojestvensky, who was about sixty years old, had been in the Russian naval service the greater part of his life. Graduating from the Michael artillery academy, Rojestvensky rose step by step until he became chief of the naval headquarters staff and the head of the intelligence department of the Russian navy.

In 1904, after the disasters which had befallen the Russian warships in their conflicts with the Japanese, Rojestvensky was given personal command of the Russian Baltic fleet, with orders to take it to Vladivostok.

The fleet sailed from Libau Oct. 16, 1904. Owing to persistent rumors that the Japanese would attack it en route, a careful outlook was kept by the Russians and when the fleet was off the Dogger banks in the North sea it came upon the North sea British fishing fleet. The lights of the Russian vessels and they fired upon the fishermen. The steam trawler Crane was sunk and two others of the fishing fleet were injured, while two men of the trawlers were killed and a number were seriously wounded. This action

Resulted in Strained Relations between Great Britain and Russia and although an international commission at Paris technically excused Rojestvensky, though condemning the firing upon the trawlers, the Russian government was assessed \$320,000 as damages.

Rojestvensky then sailed around the Cape of Good Hope and was met off Madagascar by the other vessels which had proceeded through the Mediterranean and the Red sea.

The Japanese during Rojestvensky's voyage had captured Port Arthur and sunk or captured most of the Russian warships that had been bottled up there, and this caused a change in the plans of Rojestvensky to take his fleet northward to Vladivostok. Advancing into the China sea, Rojestvensky was joined by Admiral Nebogatoff's division and the combined fleet started through the strait of Korea on the way to Vladivostok.

Between Korea and Japan, in the straits of Tsushima on May 27, the Russians ran into Vice Admiral Togo's naval ambuscade and in the conflict the Russian fleet was practically destroyed.

The battleship Kulaz Souvaroff, Rojestvensky's flagship, was blown up in the battle and the vice admiral sustained several severe wounds. He then was conveyed to the destroyer Bledovy, which surrendered to a Japanese battleship. Rojestvensky and the officers were taken ashore and the admiral was placed in a hospital. He was held prisoner until the war ended.

COMES TO A TEARFUL CLOSE

Trial of Banker Rinehart Ends With Weeping in Court.

Pittsburg, Jan. 15.—The trial of J. B. F. Rinehart, accused of wrecking the Farmers' and Drovers' National bank of Waynesburg, Pa., came to a tearful close. Rinehart cried piteously as Attorney W. C. Anderson pleaded with the jury to consider his intent, which the attorney urged was to serve the best interests of the bank, in the commission of acts upon which the charges are based.

Tears trickled down the cheeks of the attorney as he spoke and there was weeping throughout the crowded courtroom as reference was made to the banker's wife and little boy, who appeared in court for the first time. The jury is now out.

George W. Worley, brother-in-law of Rinehart, and James L. Smith, a prominent business man of Waynesburg, were arrested by United States secret service operatives on a charge of attempting to tamper with the Rinehart jury.

MURDERER UNDER ARREST

Man Who Killed August Bayer of Herman, Minn., Captured.

Minneapolis, Jan. 15.—The man who shot and killed August Bayer of Herman, Minn., near Keegan's lake Tuesday, was apprehended in a peculiar manner and when arrested confessed to the crime. He gave his name as Andre Gombac.

In a touring car two detectives had been scouring the outskirts of the city when the machine broke down. Going to the home of a farmer nearby for assistance, they were told by the farmer that he had just given a man of the description of the murderer a ride. The detectives promptly abandoned their machine and ran down the road and from a hill spied their man just as he was turning into another farmhouse. The officers entered this house and accused the man of the crime. He made a clean breast of everything. He said robbery was his only motive and that he had shot Bayer when he tried to get away from him. He said he knew the bullet had hit his victim, but he did not know he had killed Bayer. He sold his revolver in a pawn shop in this city and was trying to make his escape by the highways when overtaken.

ACTOR PREVENTS DISASTER

Averts Wreck That Might Have Cost Many Lives.

Danville, Ill., Jan. 15.—The presence of mind of Arthur Hill, an actor, saved from death sixty-four people when by turning the brakes he prevented a railroad coach from colliding with a freight train. A theatrical company en route from Urbana to Danville was running a special on the Wabash and when the train reached the top of a grade six miles south of Danville a drawbar on the rear coach broke and the coach started down the grade at forty miles an hour. Hill was standing on the rear platform and as the runaway rounded a curve he saw a train in the distance coming to meet them. He applied the brakes, but before the coach was brought to a standstill, May Poth and Miss Hudson, who were on the rear platform, jumped. Dorothy Hutchinson remained on the platform, and when it struck the freight train, which had just been brought to a standstill, she was thrown against a telegraph pole and was injured about the shoulders. Miss Poth had an elbow dislocated and Miss Hudson suffered a sprained ankle. Several others inside the coach were shaken up but escaped serious injury.

ENGINE GOES INTO A LAKE

Both the Engineer and Fireman Are Drowned

Vancouver, B. C., Jan. 15.—Carrying its engineer and fireman with it, the locomotive of a westbound Canadian Pacific freight train ran into a snow slide at Three Valley Lake, 250 miles east of Vancouver, at full speed and plunged down the embankment and into the lake. Both men were pinned in the cab of the engine and were drowned.

It is reported here that only the locomotive went into the lake, which is said to be about thirty-five feet deep at this point, rapidly shelving to a great depth a short distance from shore. Both the dead men were residents of Revelstoke.

Tries to End His Life.

Scranton, Pa., Jan. 15.—Nick Mathewson, brother of the famous New York ball pitcher, and himself a promising pitcher, shot himself fatally in the right temple, evidently with suicidal intent. He was a student at Lafayette college, Easton, and had been at home sick for two weeks.

MANY DRAMATIC RESCUES MADE

One Life Lost and Several Persons Hurt in Fire.

Topeka, Kan., Jan. 15.—All the hope that Isaac F. Lambert, the Emporia attorney and politician, might have escaped from the fire that destroyed the Copeland hotel here has been given up. It is believed that he was suffocated while trying to make his way down a smoke-filled hallway and was burned to death. When last seen he stood at an upper window urging the firemen to save him. Finally he disappeared into the interior. No trace of his body has been found.

It is likely that all of the fourteen injured guests will recover. Representative A. W. Smith is the most seriously hurt, but his condition is favorable to his ultimate recovery.

The lower house of the legislature passed a resolution of sympathy for Representative Smith and adopted a resolution providing the appointment of a committee to investigate the fire. The Copeland hotel was an old structure and proved to be an easy prey to the flames.

Several dramatic rescues were made during the progress of the fire. J. W. Stewart, state senator from Segwick county, aided by W. Y. Morgan, editor of the Hutchinson News, proved themselves to be heroes. Senator Stewart was awakened and running into the hall found it full of smoke. He had hardly opened the door when T. B. Murdock, editor of the Eldorado Republican, appeared. A few seconds later Mr. and Mrs. W. Y. Morgan, whose room was opposite Stewart's room, appeared. All started toward the fire escape, but they were cut off by the flames in the hall. Stewart rushed into a room and threw open the window. Then he grabbed a mattress and threw it out. There is a two-story building on the south side of the hotel and the mattress fell on the roof of this building. Then Senator Stewart, holding T. B. Murdock by the hands, after the manner of trapeze performers in doing the "Leap for Life," swung Murdock down from the building and to one side, letting him drop to the mattress.

Mr. and Mrs. Morgan were dropped to the mattress in the same way. Mrs. Morgan struck a timber on the roof and her leg was broken. Senator Stewart threw out another mattress, upon which he himself jumped. All were taken from the roof by the ladders.

The hotel is a complete loss, estimated at \$120,000.

TO PAY FARE ON HIS OWN ROAD

President of the Great Northern in a Peculiar Position.

St. Paul, Jan. 15.—Louis W. Hill, president of the Great Northern railroad, will pay fare on his railroad hereafter when traveling in Minnesota. He informed Governor Johnson that he would accept an appointment as member of the state highway commission and his name will be sent to the senate.

The attorney general has ruled that persons holding any kind of state position are absolutely barred from accepting free transportation, even if they are railroad officials. This opinion is also held by the Great Northern legal department. Mr. Hill is a good roads enthusiast and anxious to serve on the commission, so he says he will pay his fare hereafter for the privilege of holding the appointment.

RIVERS ARE RISING RAPIDLY

Serious Floods Threatened in Valleys of California.

San Francisco, Jan. 15.—Floods in the river valleys and lakesides in the mountains are threatened as the result of the rain storm now prevailing throughout the state. The Sacramento, American, Feather, Yuba, San Joaquin, Kings and Salinas rivers are rising and it is expected that the Sacramento and American soon will reach the flood stage.

At Folsom the American is now up to the danger point. A gold dredger valued at \$150,000 which had been working in the bed of the stream was wrecked by the high water and will be a total loss. Twenty launches of the Sacramento Boat club were torn from their moorings and swept down stream. The weather bureau has warned the people of Stockton that there is grave danger to that city from the San Joaquin river and Mormon slough. The latter, which carries a great quantity of water, broke through the levees above the town of Linden and has spread over a vast extent of territory.

At Kennel, in the northern part of the state, over six inches of rain has fallen in the past twenty-four hours and at Blue Canon seven inches have been recorded. Workmen on the Western Pacific report that the entire section is a sea of water. Snow is falling in the Sierras and the Yosemite valley has been temporarily closed to tourists.

SCORES FORESTRY BUREAU

President of Wool Growers' Association Talks to Sheepmen.

Pocatello, Ida., Jan. 15.—One thousand sheepmen attended the opening session of the National Wool Growers' convention here and listened attentively to a bitter arraignment of the federal forestry bureau by President W. Gooding of Shoshone.

Declaring that the government in its administration of the national forests and reclamation service has failed woefully, President Gooding urged that congress be asked to name a committee of fifteen men to investigate and report needed changes in the rules governing these two bureaus.

From nearly every Western state delegates are present. The forenoon session of the convention was devoted entirely to the midwinter sheep show. Over 600 sheep are entered. The opening business session of the convention was held in the afternoon. Governor J. H. Brady of Idaho in an address of welcome provoked laughter when he said he would like to invite the wool men to the cooling shades of Idaho's forest reserves were it not for the fact that the reserves are bare of trees.

Pugilist Visits White House.

Washington, Jan. 15.—"Battling" Nelson, lightweight champion of the world, was at the White House about two hours, most of the time in the room of Secretary Loeb. Nelson went away from the executive offices with a handsome autograph of the president and one of Mr. Loeb. He complimented the president on his long ride Wednesday.

COMES TO A TEARFUL CLOSE

Trial of Banker Rinehart Ends With Weeping in Court.

Pittsburg, Jan. 15.—The trial of J. B. F. Rinehart, accused of wrecking the Farmers' and Drovers' National bank of Waynesburg, Pa., came to a tearful close. Rinehart cried piteously as Attorney W. C. Anderson pleaded with the jury to consider the intent, which the attorney urged was to serve the best interests of the bank, in the commission of acts upon which the charges are based.

Tears trickled down the cheeks of the attorney as he spoke and there was weeping throughout the crowded courtroom as reference was made to the banker's wife and little boy, who appeared in court for the first time. The jury is now out.

George W. Worley, brother-in-law of Rinehart, and James L. Smith, a prominent business man of Waynesburg, were arrested by United States secret service operatives on a charge of attempting to tamper with the Rinehart jury.

ENGINE GOES INTO A LAKE

Both the Engineer and Fireman Are Drowned

Vancouver, B. C., Jan. 15.—Carrying its engineer and fireman with it, the locomotive of a westbound Canadian Pacific freight train ran into a snow slide at Three Valley Lake, 250 miles east of Vancouver, at full speed and plunged down the embankment and into the lake. Both men were pinned in the cab of the engine and were drowned.

It is reported here that only the locomotive went into the lake, which is said to be about thirty-five feet deep at this point, rapidly shelving to a great depth a short distance from shore. Both the dead men were residents of Revelstoke.

Topeka, Kan., Jan. 15.—All the hope that Isaac F. Lambert, the Emporia attorney and politician, might have escaped from the fire that destroyed the Copeland hotel here has been given up. It is believed that he was suffocated while trying to make his way down a smoke-filled hallway and was burned to death. When last seen he stood at an upper window urging the firemen to save him. Finally he disappeared into the interior. No trace of his body has been found.

It is likely that all of the fourteen injured guests will recover. Representative A. W. Smith is the most seriously hurt, but his condition is favorable to his ultimate recovery.

All started toward the fire escape, but they were cut off by the flames in the hall. Stewart rushed into a room and threw open the window. Then he grabbed a mattress and threw it out. There is a two-story building on the south side of the hotel and the mattress fell on the roof of this building. Then Senator Stewart, holding T. B. Murdock by the hands, after the manner of trapeze performers in doing the "Leap for Life," swung Murdock out from the building and to one side, letting him drop to the mattress.

Mr. and Mrs. Morgan were dropped to the mattress in the same way. Mrs. Morgan struck a timber on the roof and her leg was broken. Senator Stewart threw out another mattress, upon which he himself jumped. All were taken from the roof by the ladders.

The hotel is a complete loss, estimated at \$120,000.

TO PAY FARE ON HIS OWN ROAD

President of the Great Northern in a Peculiar Position.

St. Paul, Jan. 15.—Louis W. Hill, president of the Great Northern railroad, will pay fare on his railroad hereafter when traveling in Minnesota. He informed Governor Johnson that he would accept an appointment as member of the state highway commission and his name will be sent to the senate.

The attorney general has ruled that persons holding any kind of state position are absolutely barred from accepting free transportation, even if they are railroad officials. This opinion is also held by the Great Northern legal department. Mr. Hill is a good roads enthusiast and anxious to serve on the commission, so he says he will pay his fare hereafter for the privilege of holding the appointment.

RIVERS ARE RISING RAPIDLY

Serious Floods Threatened in Valleys of California.

San Francisco, Jan. 15.—Floods in the river valleys and lakesides in the mountains are threatened as the result of the rain storm now prevailing throughout the state. The Sacramento, American, Feather, Yuba, San Joaquin, Kings and Salinas rivers are rising and it is expected that the Sacramento and American soon will reach the flood stage.

At Folsom the American is now up to the danger point. A gold dredger valued at \$150,000 which had been working in the bed of the stream was wrecked by the high water and will be a total loss. Twenty launches of the Sacramento Boat club were torn from their moorings and swept down stream. The weather bureau has warned the people of Stockton that there is grave danger to that city from the San Joaquin river and Mormon slough. The latter, which carries a great quantity of water, broke through the levees above the town of Linden and has spread over a vast extent of territory.

At Kennel, in the northern part of the state, over six inches of rain has fallen in the past twenty-four hours and at Blue Canon seven inches have been recorded. Workmen on the Western Pacific report that the entire section is a sea of water. Snow is falling in the Sierras and the Yosemite valley has been temporarily closed to tourists.

Declaring that the government in its administration of the national forests and reclamation service has failed woefully, President Gooding urged that congress be asked to name a committee of fifteen men to investigate and report needed changes in the rules governing these two bureaus.

From nearly every Western state delegates are present. The forenoon session of the convention was devoted entirely to the midwinter sheep show. Over 600 sheep are entered.

The opening business session of the convention was held in the afternoon. Governor J. H. "A girl will marry without knowing
how to cook, and a man will marry

Too true, but in many instances both

both propositions.

THE Minneapolis Journal is of the
opinion that local option and a tonnage
tax on iron ore are two measures that
will not become laws during the present
session. The political writer takes his
opinion from what he knows of the
make-up of the committees.

DURING the past 38 years in the city
of Chicago there have been 500,000
marriage licenses issued, the first of
the series having been issued in 1871
following the great fire. The percent-
age of divorces out of this number dur-
ing that time is not given.

THE state labor department during
the past two terms of democratic rule
has been under the governor when he
was home and during his frequent ab-
sences Harvey Grimmer seems to have
attended to it, according to the report
made by Commissioner Williams.
There isn't much question about the
Minnesota labor bureau having been
used to build up a political machine for
Gov. Johnson, but Williams, who was
deposed, is not receiving very much
credit for exposing the methods at this
late day when he has been cognizant of
the facts for the past four years.

VETO MESSAGE SENT TO HOUSE

President Disapproves of a
Bill to Dam River.

GIVES REASONS THEREFOR

Bill in Question Gives Grantee a Mo-
nopolistic Privilege—No Rights In-
volving Waterpower Should Be
Granted to Any Corporation in Per-
petuity—Feels in Duty Bound to Pro-
tect the Resources of the Country
From the Hands of Monopoly.

Washington, Jan. 15.—President
Roosevelt today sent a special mes-
sage to the house, which, in part, is
as follows:
To the House of Representatives:

I return herewith without my ap-
proval house bill 17,707, to authorize
William H. Standish to construct a
dam across James river, in Stone
county, Mo., and divert a portion of
its water through a tunnel into said
river again to create electric power.
My reasons for not signing the bill
are:

The bill gives grantee a valuable
privilege which by its very nature is
monopolistic and does not contain
conditions to protect the house. I
wrote on March 13, 1908, the follow-
ing letter to the senate committee on
commerce:

"Numerous bills granting water
rights in conformity with the general
account of June 21, 1906, have been
introduced during the present session
of congress and some have already
passed. While the general act author-
izes limitations and restriction of
water rights in public interest and
would seem to warrant making a
reasonable charge for benefits con-
ferred those bills which have come to
my attention do not seem to guard
the public adequately in these re-
spects.

"No rights involving water power
should be granted to any corporation
in perpetuity, but only for a length of
time sufficient to allow them to con-
duct their business profitably. Rea-
sonable charge should be made for
valuable rights and privileges ob-
tained from the national government.
Accordingly I have decided to sign
no bills which do not provide spec-
ifically for the right to fix and make
a charge and for definite limitation in
time of rights conferred."

Rainy River Veto.

In my veto message of April 13,
1908, returning house bill 15,444
(Rainy river dam bill), I said:

"We are now at the beginning of
great development in water power.
Its use is entering more and more
largely into every element of daily
life of the people. Already the evils
of monopoly are becoming manifest;
already the experience of the past
shows the necessity of caution in
making unrestricted grants of this
great power.

"The present policy pursued in
making these grants is unwise.

"The Rainy River company prom-
ised to submit to and abide by such
conditions as may be imposed by the
secretary of war, including a time
limit and reasonable charge.

"An amendment to the present bill
was proposed by the war department.
The letter, veto message and amend-
ment were considered by the senate
committee on commerce."

Their report set forth legal argu-
ment intended to show that the fed-
eral government has no power to im-
pose any charge whatever for such
privilege.

The authority of congress was as-
serted by Secretary Taft on April 17,
1908, when he said: "In the execu-
tion of any project connected with
improvement of navigation the power
of congress extends to the regulation
and development of the waters for
purposes subsidiary to navigation."

Purpose of Corporations.

From reliable evidence it is shown
that thirteen big concerns in the
United States control water power
and advantageous power sites equal
to more than 33 per cent of the total
water power now in use.

The concerns are acting
with foresight, singleness of purpose
and vigor to control the water pow-
ers of the country.

The new legislation sought in their
own interest by some companies in
the West and the opposition of other
companies in the East to proposed
legislation in the public interest have
a common source and a common
purpose, which is a centralized monopoly
of hydro-electric power development
free of all public control.

The president repeats his words
with which he concluded the message
returning the Rainy River bill in which
he made five suggestions for covering
a substitution of a definite policy in
making grants instead of the present
haphazard policy of permanently
alienating valuable public property
and continued:

I will sign no bill granting a priv-
ilege of this character which does not
contain the substances of these con-
ditions. I consider myself bound as
far as exercise of my executive power
will allow to do for the people, in
prevention of monopoly of their re-
sources, what I believe they would do
for themselves if they were in a posi-
tion to act.

The Wrong Word.

Slips of the tongue are to be put
down to bad luck as much perhaps as
to poor elocution. A young man who
was recently canvassing for subscrip-
tions missed fire on a word and as a
result was out one commission. He
stood in the front hall, explaining to
the lady of the house the merits of the
paper he was urging upon her.

"The circulation is enormous," he
said. "Every week this periodical
reaches something like 3,000,000 fire-
places."

The woman looked at him keenly. "I
don't doubt but what you meant fire-
sides," she said. "But I guess I won't
take it today, thank you."—Youth's
Companion.

Short Lived Genius.

Lucas Jacobsz, known to the world
as Lucas Van Leyden, painter and en-
graver, when he had barely reached
his ninth year made some engravings
after his own designs, at twelve painted
his well known "St. Hubert" and at
fourteen gave out an engraving repre-
senting the killing of the monk Ser-
gius by Mohammed. At thirty-nine he
was dead with a remarkable record of
achievement behind him, a life unfor-
tunately wherein the promise of his
youth was by no means fulfilled.—Ar-

THE Minneapolis Journal is of the
opinion that local option and a tonnage
tax on iron ore are two measures that
will not become laws during the present
session. The political writer takes his
opinion from what he knows of the
make-up of the committees.

DURING the past 38 years in the city

isn't much question about the Minne-
sota labor bureau having been used to
build up a political machine for Gov.
Johnson, but Williams, who was de-
posed, is not receiving very much credit
for exposing the methods at this late
day when he has been cognizant of the
facts for the past four years.

ferred those bills which have come to
my attention do not seem to guard
the public adequately in these re-
spects.

"No rights involving water power
should be granted to any corporation
in perpetuity, but only for a length of
time sufficient to allow them to con-
duct their business profitably. Rea-
sonable charge should be made for
valuable rights and privileges ob-
tained from the national government.
Accordingly I have decided to sign
no bills which do not provide specifi-
cally for the right to fix and make
a charge and for definite limitation in
time of rights conferred."

Rainy River Veto.

In my veto message of April 13,
1908, returning house bill 15,444
(Rainy river dam bill), I said:

"We are now at the beginning of
great development in water power.
Its use is entering more and more
largely into every element of daily
life of the people. Already the evils
of monopoly are becoming manifest;
already the experience of the past
shows the necessity of caution in
making unrestricted grants of this
great power.

"The present policy pursued in
making these grants is unwise.
"The Rainy River company prom-
ised to submit to and abide by such
conditions as may be imposed by the
secretary of war, including a time
limit and reasonable charge.

"An amendment to the present bill
was proposed by the war department.
The letter, veto message and amend-
ment were considered by the senate
committee on commerce."

Their report set forth legal argu-
ment intended to show that the fed-
eral government has no power to im-
pose any charge whatever for such
privilege.

The authority of congress was as-
serted by Secretary Taft on April 17,
1908, when he said: "In the execu-
tion of any project connected with
improvement of navigation the power
of congress extends to the regulation
and development of the waters for
purposes subsidiary to navigation."

Purpose of Corporations.

From reliable evidence it is shown
that thirteen big concerns in the
United States control water power
and advantageous power sites equal
to more than 33 per cent of the total
water power now in use.

The corporations are acting
with foresight, singleness of purpose
and vigor to control the water pow-
ers of the country.

The new legislation sought in their
own interest by some companies in
the West and the opposition of other
companies in the East to proposed
legislation in the public interest have
a common source and a common pur-
pose, which is a centralized monopoly
of hydro-electric power development
free of all public control.

The president repeats his words
with which he concluded the message
returning the Rainy River bill in which
he made five suggestions for covering
a substantial part of a definite policy
in making grants instead of the present
haphazard policy of permanently
alienating valuable public property
and continued:

I will sign no bill granting a priv-
ilege of this character which does not
contain the substances of these con-
ditions. I consider myself bound as
far as exercise of my executive power
will allow to do for the people, in
prevention of monopoly of their re-
sources, what I believe they would do
for themselves if they were in a posi-
tion to act.

The Wrong Word.

Slips of the tongue are to be put
down to bad luck as much perhaps as
to poor elocution. A young man who
was recently canvassing for subscrip-

result was out one commission. He
stood in the front hall, explaining to
the lady of the house the merits of the
paper he was urging upon her.

"The circulation is enormous," he
said. "Every week this periodical
reaches something like 3,000,000 fire-
places."

The woman looked at him keenly. "I
don't doubt but what you meant fire-
sides," she said. "But I guess I won't
take it today, thank you."—Youth's

JORDAN CASE IS ON TRIAL NOW

District Court is Engaged in Trying Case of Jordan vs. McKinley and Hoerr

NEW PANEL ALL APPEARED

Maud Colvin Arraigned and That and Other Criminal Cases Continued

The district court yesterday afternoon took up the case of Jordan and Jordan against McKinley and Hoerr. The roll of the new jury panel was called and all were present. The case is on trial, Wm. McKinley being the only witness examined. Mr. Polk, for the plaintiffs is being assisted by Ira C. Peterson, of Minneapolis, and Mr. Long, for the defendant has H. F. Smith, of Mankato, assisting him. This case involves about \$3000 and interest, being the sum due for groceries furnished for the cedar camps run by Mr. McKinley, and in which business it is alleged Hoerr was a partner.

Maud Colvin, indicted at the present term of court for grand larceny, appeared and plead not guilty and the case was continued until next term as was the case against Wm. Bubar and those against E. K. Woodin.

The indictment against Ralph Morey was dismissed yesterday on motion of County Attorney Fleming, but up to 10:30 this forenoon Judge McClenahan had made no order for his release and he was still in the custody of Sheriff F. J. Reid.

The following is the panel of petit jurors which was summoned to appear yesterday:

Charles Molstrom, Bay Lake.

A Very Pleasant Party

Misses Alice Lyddon and Louise Boppel were hostesses at a very pleasant dancing party given at Walker's hall Thursday evening. The room was handsomely decorated, red and white being the color scheme used, the decorations consisting largely of tissue paper and Chinese lanterns. A handsome cozy corner was provided in one corner of the hall, while in the opposite corner was the frappe booth which was decorated with the flags of all nations. Plants and cut flowers were also used in the decorations. Music for the occasion was furnished by Conrad Ousdahl and H. H. Krause. The hall was well filled with merry makers who had a most enjoyable evening.

Propitiating the Weather.

In England after long drought we pray for rain in our churches, and in most Roman Catholic countries processions and pilgrimages are the order of the day. In Macedonia the Greeks organize great demonstrations in dry summers. A procession of children visits all the local wells and springs, accompanied by a maiden covered with garlands and masses of flowers. This sounds as romantic as our queen of the May, and it could surprise no one if, like Tennyson's heroine, she came to a sad end, for at each of the stopping places the poor girl is drenched with water, while the children sing a hymning prayer for rain.—English Magazine.

JONES TAKES \$100,000

The Rugby, N. D. Absconder, Gets Away with Much Loot and Many People Were Victimized

Rugby, N. D., Jan. 15.—Andy Jones, the missing cashier of the Rugby National bank, is believed to have made off with \$100,000 in cash realized from various sources. It is declared that people all over the northwest were victimized.

The investigation of the affairs of the bank continues and it is believed it will weather the financial storm. Jones passed his worthless paper on individuals and other banks and left his own bank alone as a rule, evidently through fear of the federal authorities.

His action in indorsing his own paper is contrary to banking rules and the bank will not be held, although Jones is criminally liable. Government secret service men are looking for him, but have not located him.

HOME MADE KIDNEY CURE

Makes the Kidneys Act and Overcomes Terrible Cases of Rheumatism

To make up enough of the "Dandelion treatment," which is claimed to be relieving nearly every sufferer who uses it for backache, kidney complaint, sore weak bladder and rheumatism; get from any good prescription pharmacy one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon and three ounces Compound Syrup of Sarsaparilla. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

Those who have tried it claim that it acts gently but thoroughly on the kidneys, relieving backache and bladder trouble and urinary difficulties before you realize it. Many cases of rheumatism are known to have been relieved within a few days, the pain and swelling diminishing with each dose.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever should not hesitate to make this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Medical Fees in Ancient Greece.

The remuneration of physicians originally consisted in presents, but at the time of Hippocrates payment in money was already customary. Physicians received also public praise, the "crown of honor," the freedom of the city, the privilege of eating at the king's table. Physicians employed by the state received a yearly salary, as high as \$2,000 in some instances. Rich people would pay enormous sums for a successful treatment, and a case is recorded in which \$200,000 was paid.—New York Medical Journal.

The Human Nose.

The human nose is an apologetic pimple compared with the magnificent organ of the horse or dog. Our sense of smell is, when contrasted with our sight and hearing, singularly undiscriminating. We can arrange sounds into series. We know E is between D and F. We appreciate octaves and harmonies. Similarly we can put the colors into order, decide upon the amount of blue in a purple and get almost to emotion at the sight of a white star in the blue of a summer twilight or of the amber sunlight glinting between the blades of grass. But this serial arrangement, this sorting and selective choice, is entirely beyond our rudimentary senses of smell. To us the idea of the scent of the violet being a rich harmony or the suggestion that the frying of onions is a discord or that patchouli and the new mown hay are pleasant things in different times and keys sounds utter nonsense. Our noses are entirely too dull to effect the analysis necessary before scents can be distinguished as complex and sorted and recombined so as to be made an aesthetic pleasure.—London Globe.

Cult of Beauty in Bosnia.

Half a century ago a traveler in Bosnia found the poorest peasant woman an adept in the arts and adjuncts of the toilet. Her store of cosmetics was said to be "astonishing," comprising oil of roses, rosewater, extracts of musk, saffron and amber. She dyed her hair black and dressed it with "kna," while her eyebrows and eyelashes were darkened with a powder made from a green nut burned black (schischark). She painted her cheeks with powdered flower of the iris and her nails with yet another floral product.

For a depilatory she used lime and alum. In spite of these aids, however, the beauty of the Bosnia women was a fading thing at thirty.—London Standard.

Medical Fees in Ancient Greece.

The remuneration of physicians originally consisted in presents, but at the time of Hippocrates payment in money was already customary. Physicians received also public praise, the "crown of honor," the freedom of the city, the privilege of eating at the king's table. Physicians employed by the state received a yearly salary, as high as \$2,000 in some instances. Rich people would pay enormous sums for a successful treatment, and a case is recorded in which \$200,000 was paid.—New York Medical Journal.

RED MEN HELD BIG POW WOW

Over 500 Persons Were Present Thursday Evening at Their Open Installation

POCAHONTAS ALSO INSTALLED

After Installation There was a Big Feed Followed by Social Hour and Dancing

One of the most pleasant events that has taken place in Brainerd in a long while was the open joint installation of Red Cloud Tribe, No. 13, I. O. R. M., and Iola Council, Degree of Pocahontas, No. 15, at Columbian hall, Thursday evening. The hall was crowded to overflowing with members and friends to witness the ceremonies which were conducted by Bro. Vivian Prince and were very impressive. After the installation Mrs. J. R. Mutch, the retiring Pocahontas, was presented with a beautiful gold bead necklace and cross from the members of the council for her efficient work in that chair for the past year. The presentation was made by Mrs. George Abbott in a very neat little speech which was well received by all present. After the installation ceremonies refreshments were served, over 500 partaking. A social session followed, the gathering breaking up in the small hours of the morning. The following were the officers installed:

The Ruling Passion.

Two worthy Scots, followers of the royal and ancient game of golf, were in the habit of daily playing together. In the course of time one lost his wife, and on hearing the sad news his friend of the links paid on the following morning a call to express his sincere sympathy. Condolence having been declared, second nature manifested itself.

"You'll no' be gowin' the day?" There was a pause ere the answer came:

"Weel, I'll jist tak' ma cleek an' we'll play in or twa holes. Anyway, she died yesterday."—Bailey's Magazine.

The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. GRENEY & CO., Toledo, O.

The Human Nose.

The human nose is an apologetic pimple compared with the magnificent organ of the horse or dog. Our sense of smell is, when contrasted with our sight and hearing, singularly undiscriminating. We can arrange sounds into series. We know E is between D and F. We appreciate octaves and harmonies. Similarly we can put the colors into order, decide upon the amount of blue in a purple and get almost to emotion at the sight of a white star in the blue of a summer twilight or of the amber sunlight glinting between the blades of grass. But this serial arrangement, this sorting and selective choice, is entirely beyond our rudimentary senses of smell. To us the idea of the scent of the violet being a rich harmony or the suggestion that the frying of onions is a discord or that patchouli and the new mown hay are pleasant things in different times and keys sounds utter nonsense. Our noses are entirely too dull to effect the analysis necessary before scents can be distinguished as complex and sorted and recombined so as to be made an aesthetic pleasure.—London Globe.

Cult of Beauty in Bosnia.

Half a century ago a traveler in Bosnia found the poorest peasant woman an adept in the arts and adjuncts of the toilet. Her store of cosmetics was said to be "astounding," comprising oil of roses, rosewater, extracts of musk, saffron and amber. She dyed her hair black and dressed it with "kna," while her eyebrows and eyelashes were darkened with a powder made from a green nut burned black (schischark). She painted her cheeks with powdered flower of the iris and her nails with yet another floral prod-

uct. For a depilatory she used lime and alum. In spite of these aids, however, the beauty of the Bosnia women was a fading thing at thirty.—London Standard.

A Turkish Reform.

One of the projected reforms of the Young Turk party is to rid the streets of Constantinople from the dogs which infest them. All the dogs are to be shipped to various isles in the sea of Marmora, where they will be fed and cared for until they die a natural death.

The Dry Sand Trick.
A very clever trick often seen in India is the following: It is known as the "dry sand trick." The faker brings forward a pail, which he proceeds to fill with water. He then shows some ordinary sand, quite dry. To prove its dryness he takes up a handful and, blowing sharply upon it, scatters it in all directions. He then takes up another handful and drops it into the water. We can all see it lying in the bottom of the pail under the water. Next, showing his hands empty, he places one in the pail and brings out a handful of the sand. Blowing upon it, it still scatters in all directions, showing it to be as dry as ever. This is repeated several times until all the sand is again extracted. This clever trick is performed in the following manner: Fine, clean sand is selected, washed carefully in hot water several times and dried in the sun. Some of this sand is then placed in a frying pan with a lump of fresh lard and is cooked until all the lard is burned away. The result is that every particle of sand is covered with a thin coating of grease, so that when this sand is dropped into the water it remains dry.—Scientific American

Eye Strain Headache

Toledo, Ohio, lady tells how headaches disappeared with the use of Dr. A. W. Chase's Nerve Pills.
Women who use their eyes much for reading or fine needlework are sure to find eye-strain and nervous, sick headaches among the first symptoms when the nervous system gets run down.

As a positive cure for headaches, not mere relief but cure, Dr. A. W. Chase's Nerve Pills stand without a rival because they get at the cause of the trouble and build up the nervous system to health and strength.

Mrs. K. Kramer, 31 Summit St., Toledo, Ohio, states: "My trouble was good, hard, nervous, sick headaches and neuralgia of the eyes, all due to a run-down system. I heard of Dr. A. W. Chase's Nerve Pills and obtained splendid results from their use. The headaches and neuralgia disappeared when my system was built up; the nerves are steady and my whole system wonderfully benefited."

The portrait and signature of A. W. Chase, M. D., the famous Receipt Book author, are on every box. 50 cents at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

House Refuses to Revive Controversy With President.

AFTER A SPIRITED DEBATE

Lower House of Congress Tables Resolution Providing for the Printing of Two Million Copies of the Proceedings in the House of Last Friday, Which Resulted in Rebuke Being Administered to Chief Executive.

Washington, Jan. 15.—There was a recrudescence in the house of representatives of the controversy of that body with the president regarding the language used by him in his annual message to congress bearing on members of congress and the secret service, when Mr. Landis of Indiana offered a resolution providing for the printing of 2,000,000 copies of the proceedings in the house of last Friday, which resulted in administering a rebuke to the chief executive. The printing involves a cost of \$68,000. The resolution, after a brief but spirited debate, was unanimously tabled on motion of Mr. Smith of Iowa.

The consensus of opinion was that the house having in a dignified way disposed of the matter, there was no need to revive it, especially as the public, through the press, already was familiar with the controversy. Messrs. Mann of Illinois, Foster of Vermont, Townsend of Michigan, Williams of Mississippi and Smith of Iowa opposed the resolution. Although he charged that the president's utterances "were insulting and offensive," Mr. Williams declared that the house should not dignify the matter further by action such as the resolution proposed.

One of the most vigorous speeches against the resolution was by Mr. Smith, who argued that the only possible excuse for it was that owing to the events of that day the house proceedings were not given the general treatment in the press as was accorded the president's message regarding Senator Tillman. He declared that he was willing to go to his constituents on his record in the house "unaided by an appropriation from the federal treasury."

Disorders Practically Ended.

Rio Janerio, Jan. 15.—The disorders growing out of the popular demonstration against the American-Canadian Street car company because of its refusal to reduce fares and change its routes have practically ended. Up to date 6 persons have been killed and 120 wounded in the disorders.

Sixty-five Miners Perished.

Bluefield, W. Va., Jan. 15.—Beside the fifty-three miners already taken from the Lick Branch colliery, twelve bodies are still in the pit, making the total loss of life sixty-five. The financial loss is estimated at \$80,000.

Triple Tragedy in Missouri.

Modena, Mo., Jan. 15.—John Brooks, a farm hand in the employ of John Thompson, a young farmer living near here, drove his employer off the premises at the point of a revolver and after killing Mrs. Thompson, who was lying sick in bed, and his employer's brother, Butler Thompson, committed suicide. No motive for the shooting has been learned.

Attell Knocks Out Weeks.

Goldfield, Nev., Jan. 15.—Abe Attell knocked out Freddie Weeks in the tenth round of their fight for the featherweight championship of the world. The betting before the fight was spirited, with Attell a 2 to 1 favorite.

EVIDENCE OF INSANITY

Found by Doctors Who Examined Minister's Brain.

Detroit, Jan. 15.—The brain of Rev. John H. Carmichael, who killed Gideon Browning in the Rattle Run church and committed suicide at Carthage, Ill., was examined by four physicians here. At the conclusion of the autopsy, the physicians stated that they had found unmistakable evidence of insanity.

"We find that Rev. Mr. Carmichael had been a sufferer from acute mania," said the physicians. "The blood vessels of the brain were all congested. There was an adhesion of the coverings of the brain to the cranium, which showed an anemia of the right side of the brain, and we found granulations of the superior, posterior surface of the cerebrum. It is evident that Rev. Carmichael had suffered several attacks of acute inflammation of the brain."

The doctors agreed that the marks found upon the body, which had given rise to the report that the dead minister had been addicted to the use of a hypodermic syringe for administering drugs, had all been made after the minister's death.

Rev. Carmichael's funeral will be held today at Romulus, Mich., in the Methodist church, Rev. C. B. Steele, presiding elder of the Port Huron district, officiating.

DISCUSSES THE ANANIAS CLUB

Tillman Says Two Cabinet Members Are Eligible.

Washington, Jan. 15.—The Ananias club was discussed in the senate by Senator Tillman, who declared that statements made by Attorney General Bonaparte and Postmaster General Meyer in reply to charges made against him by the president in relation to his contemplated purchase of Oregon timber lands made them eligible to membership in that organization. He again defended his action and said in fighting the "unscrupulous men," who are determined "to destroy" him, he was "prepared for anything, even assassination."

The bill to establish postal savings banks and the omnibus claims bill were under consideration during the day.

Good From the Earthquake.

Say, Earthquake, When you shake Ten thousand houses down, And crush a town, Lay waste to fields, Disturb the sea, And hurl the helpless To eternity. Do you imagine, O Earthquake, That that is all you shake? Grim, palsying monster, It is not for you to know That further than destruction You may go. But there is more, Earthquake. You shake The great world's heart Until it pours The best that's in it On your shores. You shake the money From a million hands Stretched out to help From far and nearby lands. You shake the ever living tree Of sacred, human sympathy. You shake the thoughtless Into active thought Of making good. The ruin you have wrought. You shake the multiplicity of creeds Into one common cause of human needs. You shake the great world's heart Until it yields Its best on stricken cities And on riven fields. Say, Earthquake, Though you shake Much ill upon the smaller space, You shake much good to all the human race. Which needs such shocks as these To wake its nobler energies. —W. J. Lampton in New York Times.

POSSUM FOR THE PRESIDENT ELECT

Taft to Be Guest of Honor at Banquet in Atlanta.

EXCELS EVERY OTHER AFFAIR

Event Will Be the Greatest of Its Kind in the History of the Georgia City—Never Before Have Such Preparations Been Made to Welcome a Visitor to Georgia's Capital—Judge Taft to Deliver an Address.

Atlanta, Ga., Jan. 15.—Never in the history of Atlanta, not even in the halcyon times "before the war," has the city seen a day like today. From the aristocratic precincts of Peachtree street to the back districts, where the negroes huddle together in their little shanties, the city is astir with excitement over the coming here today of President Elect William H. Taft, who will be the city's guest for twenty-four hours. The fact that he is a Republican and as such at variance with the majority of Atlanta citizens is lost sight of in the universal feeling that today Atlanta has an opportunity of showing that the famous Southern hospitality has not been overrated.

Gathered at the railroad station to greet Mr. Taft on his arrival from Augusta were the retiring governor of Georgia, Hoke Smith, and governor-elect, Joseph M. Brown; the mayor of the city, Robert F. Maddox; President Candler of the chamber of commerce, which body will dine Mr. Taft tonight, and a host of other distinguished Southerners. This afternoon will see a continuous series of receptions for the guest of honor. Only one thing mars the occasion in the opinion of Atlantans. That is the absence of Mrs. Taft, for whom the ladies of Atlanta had planned a warm reception until it was announced with regret by the president-elect that a previous engagement with their son at Yale would prevent her coming here.

Will Eat "Possum and Taters."

The climax of Atlanta's attentions to Mr. Taft will come tonight at the chamber of commerce banquet. Six hundred and fifty others will sit down to dine with the president elect on a menu composed mainly of famous Southern delicacies. The piece de resistance will be baked opossum, with baked sweet potatoes on the right of him, on the left of him, under him and heaped over him. The possum was included in the bill of fare at Mr. Taft's request.

Mr. Taft is by repute a good trencherman and has dined on most of the good things that the various sections of the earth have to offer. But he has never tasted, say the famous Atlanta gourmets, anything to equal the twenty-four pound possum—a record breaker for weight, by the way—that will face him tonight. Hundreds of other possums will feed the other guests. Leading up to the "possum and taters" there will be the renowned Brunswick stew and to wash the dishes down there will be gallons and gallons of "simmon beer," a strictly temperance drink brewed from the famous but slightly acid persimmon. If Mr. Taft's portly form rises from the table with ease tonight when he begins his address Atlanta's chefs will be in for a bad time.

The banquet will be held in the new Armory auditorium, which has been decorated until it appears a bower of fragrant flowers. The committee in charge has spared no expense in making the banquet the most artistic affair ever held in the South.

Mrs. Corey's Father Very Ill.

San Francisco, Jan. 15.—C. H. Gilman, father of Mrs. Maybelle Corey, wife of William E. Corey, the steel magnate, suffered a stroke of apoplexy at his home in this city and is in a critical condition.

KERN ISSUES A STATEMENT

Made Hard Fight Against the Secret Ballot.

Indianapolis, Jan. 15.—The selection of B. F. Shively of South Bend as nominee for United States senator by Democratic members of the state legislature was followed by a statement from John W. Kern, who was Shively's strongest opponent. Concerning the secret ballot, against which Kern made a hard fight, he says it made possible not only the betrayal of constituents by their representatives, but "all sorts of treachery, double dealing and corrupt practices."

Shively was elected on the twentieth ballot, after the caucus had balloted for five hours. The contest was a hard one. John E. Lamb, who stood for the open ballot, tried to throw his forces to Kern, but failed in each attempt. Mr. Kern left the state house where the caucus was held immediately after the final result was announced.

When shown a copy of the Kern charges, Mr. Shively refused to make any comments. Mr. Shively's room at the Denison hotel was crowded by legislators and friends who came to congratulate him on his victory. Messages of congratulation were received from national Democratic leaders, among them W. J. Bryan.

GREET NEW IOWA GOVERNOR

Ten Thousand People Attend Reception at State Capitol.

Des Moines, Ia., Jan. 15.—Ten thousand persons greeted Governor B. F. Carroll at a reception held at the capitol, following his inauguration. The state house was brilliantly illuminated and a band played in the rotunda.

Senator C. C. Doweil and Representative John B. Sullivan and the other members of the two houses of the legislature headed the reception line.

Chief Justice W. D. Evans administered the oath of office to Governor Carroll and Lieutenant Governor George W. Clark in the presence of a vast throng. Mrs. Carroll, by courtesy of the board of health, was relieved of quarantine restrictions due to the illness of her son, and permitted to attend her husband's installation.

Next Wednesday noon the state legislature will elect former Governor A. B. Cummins United States senator.

FOR CANADIAN-YANKEE CANAL

International Conference on the Subject Meets in Ottawa.

Ottawa, Ont., Jan. 15.—The advancement of the idea of an international trunk line inland waterway is the purpose of a meeting to be held here today by a deputation of business men from the United States and officials of the Dominion government. The latter will be headed by Premier Laurier, who is interested in the project.

The object of the delegation's visit is mainly to discuss plans for the improvement of the Richelieu river and the Champlain canal to correspond with the improvements now being made to the inland waterway through Lake Champlain between the Dominion metropolis and New York.

HAINS JURY IS STILL OUT

Deliberating Upon Evidence in Famous Murder Case.

Flushing, N. Y., Jan. 15.—The jury in the trial of Thornton Jenkins Hains, charged with the killing of William E. Annis, is still deliberating upon the evidence. They have been out seven hours, but no word has come to Justice Crane on what progress has been made in the consideration of the evidence.

Where Vessels Capsize Frequently.

The capsizing of a vessel tied up to a pier is common enough in the bay of Fundy and its tributary streams. The usual rise and fall of the tide along that bay are from forty to fifty feet, and high tides sometimes exceed sixty feet. With the fall of the tide all craft are left high, but by no means dry, with an area of chocolate colored mud all about them. This mud is too shifting to hold a vessel in safety, so each pier is provided with one or more strong wood frames called shoes, fixed at the bottom of the stream or bay. Upon these shoes all vessels rest at low tide. It frequently happens, however, that a vessel does not get her shoe snugly on, so to speak, and if a strong wind comes when she is thus ill balanced over she goes into the mud, to be buried forty-five feet under the next rising tide.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

The Dry Sand Trick.
A very clever trick often seen in India is the following: It is known as the "dry sand trick." The faker brings forward a pail, which he proceeds to fill with water. He then shows some ordinary sand, quite dry. To prove its dryness he takes up a handful and, blowing sharply upon it, scatters it in all directions. He then takes up another handful and drops it into the water. We can all see it lying in the bottom of the pail under the water. Next, showing his hands empty, he places one in the pail and brings out a handful of the sand. Blowing upon it, it still scatters in all directions, showing it to be as dry as ever. This is repeated several times until all the sand is again extracted. This clever trick is performed in the following manner: Fine, clean sand is selected, washed carefully in hot water several times and dried in the sun. Some of this sand is then placed in a frying pan with a lump of fresh lard and is cooked until all the lard is burned away. The result is that every particle of sand is covered with a thin coating of grease, so that when this sand is dropped into the water it remains dry.—Scientific American

Eye Strain Headache

Toledo, Ohio, lady tells how headaches disappeared with the use of Dr. A. W. Chase's Nerve Pills.
Women who use their eyes much for reading or fine needlework are sure to find eye-strain and nervous, sick headaches among the first symptoms when the nervous system gets run down.
As a positive cure for headaches, not mere relief but cure, Dr. A. W. Chase's Nerve Pills stand without a rival because they get at the cause of the trouble and build up the nervous system to health and strength.
Mrs. K. Kramer, 31 Summit St., Toledo, Ohio, states: "My trouble was good, hard, nervous, sick headaches and neuralgia of the eyes, all due to a run-down system. I heard of Dr. A. W. Chase's Nerve Pills and obtained splendid results from their use. The headaches and neuralgia disappeared when my system was built up; the nerves are steady and my whole system wonderfully benefited."
The portrait and signature of A. W. Chase M. D., the famous Receipt Book author, are on every box. 50 cents at all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

CONSIDERS THE AFFAIR ENDED

House Refuses to Revive Controversy With President.

AFTER A SPIRITED DEBATE

Lower House of Congress Tables Resolution Providing for the Printing of Two Million Copies of the Proceedings in the House of Last Friday, Which Resulted in Rebuke Being Administered to Chief Executive.

Washington, Jan. 15.—There was a recrudescence in the house of representatives of the controversy of that body with the president regarding the language used by him in his annual message to congress bearing on members of congress and the secret service, when Mr. Landis of Indiana offered a resolution providing for the printing of 2,000,000 copies of the proceedings in the house of last Friday, which resulted in administering a rebuke to the chief executive. The printing involves a cost of \$68,000. The resolution, after a brief but spirited debate, was unanimously tabled on motion of Mr. Smith of Iowa.

The consensus of opinion was that the house having in a dignified way disposed of the matter, there was no need to revive it, especially as the public, through the press, already was familiar with the controversy. Messrs. Mann of Illinois, Foster of Vermont, Townsend of Michigan, Williams of Mississippi and Smith of Iowa opposed the resolution. Although he charged that the president's utterances "were insulting and offensive," Mr. Williams declared that the house should not dignify the matter further by action such as the resolution proposed.

One of the most vigorous speeches against the resolution was by Mr. Smith, who argued that the only possible excuse for it was that owing to the events of that day the house proceedings were not given the general treatment in the press as was accorded the president's message regarding Senator Tillman. He declared that he was willing to go to his constituents on his record in the house "unaided by an appropriation from the federal treasury."

Disorders Practically Ended.

Rio Janerio, Jan. 15.—The disorders growing out of the popular demonstration against the American-Canadian Street car company because of its refusal to reduce fares and change its routes have practically ended. Up to date 6 persons have been killed and 120 wounded in the disorders.

Sixty-five Miners Perished.

Bluefield, W. Va., Jan. 15.—Beside the fifty-three miners already taken from the Lick Branch colliery, twelve bodies are still in the pit, making the total loss of life sixty-five. The financial loss is estimated at \$80,000.

Triple Tragedy in Missouri.

Modena, Mo., Jan. 15.—John Brooks, a farm hand in the employ of John Thompson, a young farmer living near here, drove his employer off the premises at the point of a revolver and after killing Mrs. Thompson, who was lying sick in bed, and his employer's brother, Butler Thompson, committed suicide. No motive for the shooting has been learned.

Attell Knocks Out Weeks.

Goldfield, Nev., Jan. 15.—Abe Attell knocked out Freddie Weeks in the tenth round of their fight for the featherweight championship of the world. The betting before the fight was spirited, with Attell a 2 to 1 favorite.

EVIDENCE OF INSANITY

Found by Doctors Who Examined Minister's Brain.

Detroit, Jan. 15.—The brain of Rev. John H. Carmichael, who killed Gideon Browning in the Rattle Run church and committed suicide at Carthage, Ill., was examined by four physicians here. At the conclusion of the autopsy, the physicians stated that they had found unmistakable evidence of insanity.

"We find that Rev. Mr. Carmichael had been a sufferer from acute mania," said the physicians. "The blood vessels of the brain were all congested. There was an adhesion of the coverings of the brain to the cranium, which showed an anemia of the right side of the brain, and we found granulations of the superior, posterior surface of the cerebrum. It is evident that Rev. Carmichael had suffered several attacks of acute inflammation of the brain."

The doctors agreed that the marks found upon the body, which had given rise to the report that the dead minister had been addicted to the use of a hypodermic syringe for administering drugs, had all been made after the minister's death.

Rev. Carmichael's funeral will be held today at Romulus, Mich., in the Methodist church. Rev. C. B. Steele, presiding elder of the Port Huron district, officiating.

DISCUSSES THE ANANIAS CLUB

Tillman Says Two Cabinet Members Are Eligible.

Washington, Jan. 15.—The Ananias club was discussed in the senate by Senator Tillman, who declared that statements made by Attorney General Bonaparte and Postmaster General Meyer in reply to charges made against him by the president in relation to his contemplated purchase of Oregon timber lands made them eligible to membership in that organization. He again defended his action and said in fighting the "unscrupulous men," who are determined "to destroy" him, he was "prepared for anything, even assassination."

The bill to establish postal savings banks and the omnibus claims bill were under consideration during the day.

Good From the Earthquake.

Say, Earthquake, When you shake Ten thousand houses down, And crush a town, Lay waste to fields, Disturb the sea And hurl the helpless To eternity, Do you imagine, O Earthquake, That that is all you shake? Grim, palsying monster, It is not for you to know That further than destruction You may go. But there is more, Earthquake. You shake The great world's heart Until it pours The best that's in it On your shores. You shake the money From a million hands Stretched out to help From far and nearby lands. You shake the ever living tree Of sacred, human sympathy. You shake the thoughtless Into active thought Of making good The ruin you have wrought. You shake the multiplicity of creeds Into one common cause of human needs. You shake the great world's heart Until it yields Its best on stricken cities And on riven fields. Say, Earthquake, Though you shake Much ill upon the smaller space, You shake much good to all the human race. Which needs such shocks as these To wake its nobler energies. —W. J. Lampton in New York Times.

POSSUM FOR THE PRESIDENT ELECT

Taft to Be Guest of Honor at Banquet in Atlanta.

EXCELS EVERY OTHER AFFAIR

Event Will Be the Greatest of Its Kind in the History of the Georgia City—Never Before Have Such Preparations Been Made to Welcome a Visitor to Georgia's Capital—Judge Taft to Deliver an Address.

Atlanta, Ga., Jan. 15.—Never in the history of Atlanta, not even in the halcyon times "before the war," has the city seen a day like today. From the aristocratic precincts of Peachtree street to the back districts, where the negroes huddle together in their little shanties, the city is astir with excitement over the coming here today of President Elect William H. Taft, who will be the city's guest for twenty-four hours. The fact that he is a Republican and as such at variance with the majority of Atlanta citizens is lost sight of in the universal feeling that today Atlanta has an opportunity of showing that the famous Southern hospitality has not been overrated.

Gathered at the railroad station to greet Mr. Taft on his arrival from Augusta were the retiring governor of Georgia, Hoke Smith, and governor-elect, Joseph M. Brown; the mayor of the city, Robert F. Maddox; President Candler of the chamber of commerce, which body will dine Mr. Taft tonight, and a host of other distinguished Southerners. This afternoon will see a continuous series of receptions for the guest of honor. Only one thing mars the occasion in the opinion of Atlantans. That is the absence of Mrs. Taft, for whom the ladies of Atlanta had planned a warm reception until it was announced with regret by the president-elect that a previous engagement with their son at Yale would prevent her coming here.

Will Eat "Possum and Taters."

The climax of Atlanta's attentions to Mr. Taft will come tonight at the chamber of commerce banquet. Six hundred and fifty others will sit down to dine with the president elect on a menu composed mainly of famous Southern delicacies. The piece de resistance will be baked opossum, with baked sweet potatoes on the right of him, on the left of him, under him and heaped over him. The possum was included in the bill of fare at Mr. Taft's request.

Mr. Taft is by repute a good trencherman and has dined on most of the good things that the various sections of the earth have to offer. But he has never tasted, say the famous Atlanta gourmets, anything to equal the twenty-four pound possum—a record breaker for weight, by the way—that will face him tonight. Hundreds of other possums will feed the other guests. Leading up to the "possum and taters" there will be the renowned Brunswick stew and to wash the dishes down there will be gallons and gallons of "simmon beer," a strictly temperance drink brewed from the famous but slightly acid persimmon. If Mr. Taft's portly form rises from the table with ease tonight when he begins his address Atlanta's chefs will be in for a bad time.

The banquet will be held in the new Armory auditorium, which has been decorated until it appears a bower of fragrant flowers. The committee in charge has spared no expense in making the banquet the most artistic affair ever held in the South.

Mrs. Corey's Father Very Ill.

San Francisco, Jan. 15.—C. H. Gilman, father of Mrs. Maybelle Corey, wife of William E. Corey, the steel magnate, suffered a stroke of apoplexy at his home in this city and is in a critical condition.

KERN ISSUES A STATEMENT

Made Hard Fight Against the Secret Ballot.

Indianapolis, Jan. 15.—The selection of B. F. Shively of South Bend as nominee for United States senator by Democratic members of the state legislature was followed by a statement from John W. Kern, who was Shively's strongest opponent. Concerning the secret ballot, against which Kern made a hard fight, he says it made possible not only the betrayal of constituents by their representatives, but "all sorts of treachery, double dealing and corrupt practices."

Shively was elected on the twentieth ballot, after the caucus had lasted for five hours. The contest was a hard one. John E. Lamb, who stood for the open ballot, tried to throw his forces to Kern, but failed in each attempt. Mr. Kern left the state house where the caucus was held immediately after the final result was announced.

When shown a copy of the Kern charges, Mr. Shively refused to make any comments. Mr. Shively's room at the Denison hotel was crowded by legislators and friends who came to congratulate him on his victory. Messages of congratulation were received from national Democratic leaders, among them W. J. Bryan.

GREET NEW IOWA GOVERNOR

Ten Thousand People Attend Reception at State Capitol.

Des Moines, Ia., Jan. 15.—Ten thousand persons greeted Governor B. F. Carroll at a reception held at the capitol, following his inauguration. The state house was brilliantly illuminated and a band played in the rotunda.

Senator C. C. Dowell and Representative John B. Sullivan and the other members of the two houses of the legislature headed the reception line.

Chief Justice W. D. Evans administered the oath of office to Governor Carroll and Lieutenant Governor George W. Clark in the presence of a vast throng. Mrs. Carroll, by courtesy of the board of health, was relieved of quarantine restrictions due to the illness of her son, and permitted to attend her husband's installation.

Next Wednesday noon the state legislature will elect former Governor A. B. Cummins United States senator.

FOR CANADIAN-YANKEE CANAL

International Conference on the Subject Meets in Ottawa.

Ottawa, Ont., Jan. 15.—The advancement of the idea of an international trunk line inland waterway is the purpose of a meeting to be held here today by a deputation of business men from the United States and officials of the Dominion government. The latter will be headed by Premier Laurier, who is interested in the project.

The object of the delegation's visit is mainly to discuss plans for the improvement of the Richelieu river and the Chambly canal to correspond with the improvements now being made to the Champlain canal, thus making a great inland waterway through Lake Champlain between the Dominion metropolis and New York.

HAINS JURY IS STILL OUT

Deliberating Upon Evidence in Famous Murder Case.

Flushing, N. Y., Jan. 15.—The jury in the trial of Thornton Jenkins Hains, charged with the killing of William E. Annis, is still deliberating upon the evidence. They have been out seven hours, but no word has come to Justice Crane on what progress has been made in the consideration of the evidence.

Where Vessels Capsize Frequently.

The capsizing of a vessel tied up to a pier is common enough in the bay of Fundy and its tributary streams. The usual rise and fall of the tide along that bay are from forty to fifty feet, and high tides sometimes exceed sixty feet. With the fall of the tide all craft are left high, but by no means dry, with an area of chocolate colored mud all about them. This mud is too shifting to hold a vessel in safety, so each pier is provided with one or more strong wood frames called shoes, fixed at the bottom of the stream or bay. Upon these shoes all vessels rest at low tide. It frequently happens, however, that a vessel does not get her shoe snugly on, so to speak, and if a strong wind comes when she is thus ill balanced over she goes into the mud, to be buried forty-five feet under the next rising tide.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific Nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop in the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and mallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.
